Scout News

All Boy Scouts are ordered to
meet at their new club room on
south end of Main St on Saturday
at 7 o'clock sharp where the boys
hope to be able to play some of the
scout games and also study scout
discipline.

The boys regret the loss of their
Scout Master, Mr C Johnson, but
hope that he will soon be among
them again.

Mr R Hoare took a very fine photo
of the Boy Scouts a few weeks
ago; those wishing to obtain copies
may do so by applying to the sec-
retary Mr O A Roalston at this of-
fice.

LUMBER WASTE FOR PULPWOOD

Practical Economy and Utilization of Wood Waste is Urged by Forestry Department

For the purpose of manufacturing the four hundred and seventy-five thousand tons of wood pulp produced in Canada in 1910 nothing was used except logs of various species, which as our timber supply decreases are becoming valuable for lumber and other uses. No slabs or other sawmill waste was reported as being converted into wood pulp, by neglecting which practice, Canada is losing greatly. During 1909 in the United States six per cent. of the total pulpwood consumption was from slabs and mill trimmings. If economy had been practiced to the same extent in Canada during the year 1910, as much pulp might have been produced as from thirty-six thousand cords of wood and not one pulp log need have been cut. This would have made twenty per cent. more pulp than Nova Scotia produced in 1910.

Looking at the subject from another view point the gain might have been much greater. Over one-half of the five billion feet of lumber cut in 1910 passed through mills at centres of large population where the slab waste of one-half cord to every thousand feet of lumber might have been saved from the incinerators. One cord of pulpwood will produce at least one-half ton of pulp so that one and a quarter million cords of slabs obtained would have produced at the lowest estimate six hundred and twenty-five thousand tons of pulp produced in Canada in 1910. The sooner such practical economy and utilization of wood waste commences the longer will Canada have an adequate supply of pulpwood.

GRIPPE LEFT HIM A CONFIRMED INVALID

BUT HE FOUND A CURE IN DODD'S KIDNEY PILLS

Quebec Postmaster was confined to bed when he started to use Dodd's Kidney Pills—They Cured him.

Tippins, Pontiac Co., Que. (Special) —Postmaster F. Tippins, of this place, who for three years has been more or less of an invalid, and who for some time has been confined to his bed, is up and around again, a healthy and hearty man. Dodd's Kidney Pills cured him.

"After recovering from an attack of Grippe," the Postmaster says in telling the story of his cure. "I took a pain in my back and I suffered for nearly three years, finally getting so bad that I was confined to my bed.

"One day I told my wife to go and get me some Dodd's Kidney Pills, as that would be the last medicine I would try. After using about half the box I began to feel better, so I kept on taking them. When I had taken two boxes I was able to get up, and ten boxes cured me completely.

The principal danger of Grippe is the after effects. The way to guard against this is strengthen the kidneys so they can strain all the dregs of the disease out of the blood. Dodd's Kidney Pills are always the last medicine anyone takes for Kidney Disease. It always cures and no other medicine is needed.

"Are your folks well to do?"
"No, they are hard to do."

Minard's Liniment Cures Distemper.

Those who make us laugh are great.—President Fallières.

Time Has Tested It—Dr. Thomas' Electro Oil has been on the market upwards of thirty years and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried its fame beyond the seas. It has no equal in the whole list of liniments. If it were double the price it would be a cheap liniment.

Every man has a fair turn to be as great as he pleases.

"I suppose Barnum went to heaven when he died."

"Well, he certainly had a good change. In fact, he had the greatest show on earth."

Shiloh's Cure
quickly stops coughs, cures colds, heals the throat and lungs. 25 cents.

Utilitarianism
I see the aviators sail o'erhead; like birds they ride the gale. And when they to the earth descend I throw and I embrace them till they're hurt, and whoop and yell and tear my shirt. But when my fervor dies away, I lean against myself and say: "The man who mows a weedy place is doing more to help the race; the worker makes the planet smile—I'll go and whoop for him a while." I see the wrestlers, lithe and strong, engage in struggles fierce and long; I marvel at their mighty throws, and shriek wild cockadoodledoos when one climbs on another's frame and breaks his neck and wins the game. But when the wrestling match is o'er, and I go toddling to my door, I mutter to myself at length: "It was a fearful waste of strength! The vim those athletes threw away would bale a hundred tons of hay! Tomorrow I shall go and yell for some one who has dug a well! The men who work with picks or saws are most deserving of applause!"—Walt Mason.

This Concrete Root Cellar Costs Less Than Wood and is Much More Durable

Cement is particularly adapted to the construction of Root Cellar floors and walls.

Experience proves that for the farmer, Concrete is superior to wood in every point of comparison.

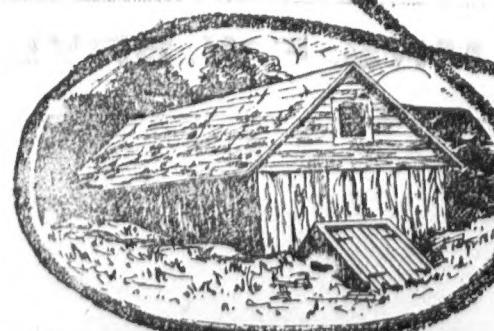

Concrete permits of a desirable degree of coolness without freezing. There is no question as to its durability. Concrete lasts, not for years, but for ages; and needs no repair.

Anyone who has scooped vegetables from the old plank floor will appreciate the fact that Concrete offers a smooth, continuous surface with no projecting plank ends or nails to damage the scoop or ruffle the temper of the scooper.

Brantford, Nov 31—Dr Charles Perrin, brother of Dr Thomas Perrin of San Jose, Cal, both reported to be heirs to a fortune of \$4,500,000, which has been accumulating in England for 200 years, is in the city on a visit to Fred Westbrook, but he informs your correspondent that his visit had no connection with the claim established for the legacy. Dr Perrin declined to discuss the case in any way although he implied that the fortune was a genuine one. It is his second visit here in 40 years, his family having been formerly well-known residents of Mount Vernon, Burford Township—The Evening Examiner, Peterborough.

In connection with the dispatch published in last night's issue regarding a Lindsay lady and an English fortune an error occurred.

The despatch stated that Mrs. J. Perrin is the wife of the late John James Perrin. Mr Perrin is alive and is a respected resident of the West Ward.

Mr S Perrin of Bowden can claim a nearer relationship than this.

A son of Mrs J J Perrin informed the Post this morning that outside of the error referred to, the dispatch was correct in every particular. The family feel satisfied that they are members of the Perrin family referred to as a direct trace of the family is available back as far as 1777.

HAS A HUGE DIOCESE

REV. OVIDE CHARLEBOIS' FIELD EXTENDS TO THE POLE.

Newly Appointed Vicar Apostolic of Keewatin Is an Energetic and Faithful Missionary—Has Spent 23 Years In the Mission Fields of the North—He Will Have Thirteen Priests to Assist Him.

Rev. Ovide Charlebois, O.M.I., who was consecrated vicar apostolic of Keewatin diocese, by Mgr. Langevin, O.M.I., archbishop of St. Boniface, at the parish church of the Assumption, near Montreal, a few days ago, is very well known in Hull, Quebec, and Ottawa. The consecration ceremony was a solemn function, three bishops, many priests, including two brothers of the new bishop, and a very large number of laity being present. Mgr. Charlebois is at present in Ottawa where he is expected to remain until the new year when he will proceed to his newly formed vicariate which embraces the north of the province of Saskatchewan and the territory north of the Saskatchewan and Manitoba up to the Arctic Circle. He will have 13 Oblate Fathers to assist him in the work in this vast field. His labors in the past have been very successful and his lordship is confident that with the help of Indian schools and his missionaries he will be able to do much

REV. O. CHARLEBOIS, O.M.I.
to solace the lot of the red men who live in that rugged district.

Mgr. Ovide Charlebois was born in Ora, Quebec, in 1862, and belongs to one of the pioneer families in that province. His early education was obtained at Assumption College, Montreal. Later he entered the Novitiate of the Oblate Fathers at Lachine and was ordained to the priesthood in 1887. Two of his brothers also entered the priesthood, one being at present principal of the Ottawa East Scholastic and the other parish priest of the Holy Family parish, Ottawa East. In 1887 Mgr. Charlebois was appointed to the mission field of the diocese of St. Albert. Five years later he arrived at St. Joseph Mission and for 16 years he labored in these wild regions of the north, for the most part making his own living whilst visiting and preaching to the people. In recognition of his zeal he was placed at the head of all the neighboring missions in 1890, this giving him supervision of all the "lower" Saskatchewan, and each year he has traveled along the Saskatchewan and its tributaries by boat from Prince Albert looking after the Indians and carrying provisions to the different posts. In 1903 he became director of St. Michael's Indian School at Duck Lake which has, under his care, become one of the finest Indian schools of the west. When the new vicariate apostolic was formed, which includes all the territory watered by the tributaries of the Hudson Bay and extending to the North Pole, Mgr. Charlebois was selected as the first vicar apostolic.

A Laborer's Windfall.

The story of a remarkable windfall comes from Bunby, near Glasgow, to the effect that a farm laborer named John McCluskey, has become heir to a huge fortune, said to exceed a quarter of a million pounds sterling. Some days ago an advertisement was published, offered a reward for information as to the whereabouts of John McCluskey, formerly of Annahilla, Tyrone. The other day a legal representative and a relation visited the farm and informed McCluskey (who was found working in a turnip field) that he was the heir to a huge fortune. In company with his two visitors, the laborer immediately proceeded to Glasgow to embark for New York. The money, it is stated, has been left by a brother of McCluskey's in the United States, with whom he had had no correspondence for twenty years.

A Novel for Tennyson.

Tennyson would have scouted the idea of a limit of 150,000 words for novels. William Allingham notes in his diary on Aug. 28, 1880, when on a visit to Farringford: "Tennyson is a constant novel reader and says: 'What I dislike is beginning a new novel. I should like to have a novel to read in a million volumes to last me my life'."—London Chronicle.

PRINCE OF TRAVELERS.

Bronze Statue of Celebrated Venetian Found in Canton.

The name Marco Polo is the most remarkable in the history of travel, though the individual in his day personality can hardly rank as one of the greatest men among explorers. Yet he has his own real, undisputable and unique claims to glory. He was the first traveler to trace a route across the whole longitude of Asia, naming and describing kingdom after kingdom from the shores of Cilicia to the Yellow Sea—the first traveler to reveal China in all its wealth and vastness, with its mighty rivers, its huge cities, its swarming population and rich manufactures; to tell us of the nations on its borders, with their eccentricities of manners and worship; of Tibet, of Burma, of Laos, of Siam, of Cochinchina, of Japan; the first to speak of that museum of wonder and beauty, the Indian Archipelago; of Java, the pearl of islands; of Sumatra; of Ceylon with its Mountain of Adam; of India, not as a mythical region, but as a country seen and partially explored; of the secluded Christian kingdom of Abyssinia; of Zanzibar, Madagascar and Socotra; and, in remotely opposite quarters, of the high plateaus of Pamir, with their wild sheep; of Siberia and the Arctic ocean; of white bears, seals—dogs and reindeer-riding lamas. That all these should be the revelations of one man and one book surely accounts for and justifies the author's high place on the roll of fame, without our seeking to invest him with imaginary attributes.

In recognition of his services to the Chinese Emperor, a bronze statue of this celebrated Venetian traveler was placed in the temple of "the 500 Genii," or Disciples of Buddha, at Canton. The floor of the temple is of marble, and the tables and chairs are all either marble or ebony. There is an inner court where under huge plantain trees the monks having the guardianship of the temple spend all their leisure. There is also a lotus pool in the centre, which is a vision of loveliness when the sacred blossoms are in bloom. Finally, there is the Lo-hangtang, or Hall of Saints, full of solemn brooding figures. The interior of the inner shrine is very dim and dark and mysterious, and the air is heavy with the perfume of incense.

Marco Polo died in Venice in 1325, but the vast compass of his travels and his romantic stories had already inspired the then known world, and resulted in the many notable discoveries following that date.

Teetotalers.

There was a remarkable reformation of drunkards in England during 1884. They adopted at Manchester the total abstinence pledge and were called teetotalers from the stuttering of one of their number, who stammered at the "t" tee-tee-total while uttering the terms "total abstinence."

You Can See How It Heals

No Question of Doubt as to the Healing power of

DR. CHASE'S OINTMENT

To people who have used internal treatment in an effort to cure eczema it is almost beyond belief what benefit can be obtained by a few applications of this soothing, healing ointment.

It is seldom that the cause of eczema can be determined, but one thing is certain, the itching must be stopped and the sores healed up.

These results are secured by the use of Dr. A. W. Chase's Ointment. The itching is relieved almost instantly, and you will be surprised at the healing which will take place over night.

A little patience and persistent treatment with Dr. Chase's Ointment will give you more practical and definite results than a whole lot of dosing with internal medicines. You can see how the Ointment heals. The other is guesswork.

Mr. George Peterson, South Bay, Ont., writes: "I wish to communicate to you the great benefit I received from using Dr. A. W. Chase's Ointment. For years I suffered with a great skin disease on my head, a sort of eczema. I tried four doctors, giving each a fair trial, but got no better. In fact, the disease spread to my left arm.

"I saw Dr. Chase's Ointment advertised and began using it. Persistent use of this treatment has entirely cured me, and I give you a statement of my case with pleasure, as I hope thereby to induce some other sufferer to try the same Dr. Chase's Ointment."

Because this ointment has made its world-wide reputation by curing the most severe and long-standing cases of eczema and piles is no reason why you should overlook its scores of uses in the relief of itching and irritation of the skin.

Dr. A. W. Chase's Ointment, 60 cents a box, at all dealers, or Edman, Bates & Co., Limited, Toronto.

THE MAGISTRATE'S STORY

What He Owes to Zam-Buk

Mr. C. E. Sanford, of Weston, Kings Co., N.S., a Justice of the Peace for the county, and deacon of the Baptist Church in Berwick, says: "I have had Zam-Buk for piles and found it a splendid remedy. It cured me."

Mr. Thomas Pearson, of Prince Albert, Sask., writes: "I must thank you for the benefit I have received from the use of Zam-Buk. Last summer I had a fever which left me with piles. I started to use Zam-Buk and found it gave me relief, so I continued with it. After using three or four boxes it effected a complete cure."

Zam-Buk will also be found a sure cure for cold sores, chapped hands, frost bite, ulcers, eczema, blood-poison, varicose sores, scalp sores, ringworm, inflamed patches, babies' eruptions and chapped places, cuts, burns, bruises, and skin injuries generally. All druggists and stores sell 50c. box, or post free from Zam-Buk Co., Toronto, upon receipt of price. You are warned against harmful imitations and substitutes. See the registered name "Zam-Buk" on every package before buying.

The Oldest Soldier.

The oldest soldier in the British army is Samuel Parsons, the King's gunner at Windsor Castle, who recently celebrated the fifty-second anniversary of his appointment as the Royal Gunner in the Round Tower of Windsor Castle. Although nearly 87 years of age, he is still on the active list, and has drawn full military pay for 65 years. Parsons still retains all his faculties, his sight being very good, and he enjoys good health. He was born at Morval, East Loo, Cornwall, in 1825, and at the age of 19 years joined the Royal Artillery at Devonport. He was at Quebec with his regiment for six years, and after three years' home service was despatched to the Crimea. After being laid up for a time with fever, Parsons returned to the sea of war the day before the charge of Balaklava, although he did not take part in that memorable charge, but was present at the battle of Inkerman. After the Crimea he went to Woolwich, and was appointed Royal Gunner at Windsor Castle on October 17, 1859. Parsons possesses six medals, including the Crimean medal, with bars for Sebastopol, Inkerman, and Balaklava, the Turkish medal, the long service medal, Queen Victoria's jubilee medal, with a bar for the Diamond Jubilee, King Edward's coronation medal, and King George's coronation medal.

Artificial Wood.

Mr. Louis Carre, in England, has invented a process for the artificial production of wood from straw or dried grass. It is proposed to use the wood only in the manufacture of matches, for which purpose, it is said to be cheaper than natural wood. The straw is pressed through crushing rollers and then through cylindrical cutters, which divide it into strips. Afterward, supplied with an adhesive, the stripe, enclosed on top and bottom with layers of paper, are pressed between other rolls, and through linked molds in the form of a chain, where they are subjected to pressure and heat, from which they issue in the form of round splints, which are then cut into the proper length for matches.

Carson's Wit.

The ready wit of Sir Edward Carson, who has accepted the leadership of the Irish Unionists forces, is illustrated by the following incident: On one occasion in court the judge pointed out to him a discrepancy between the evidence of two witnesses—one a carpenter and the other a publican. "That is so, my lord," he replied. "Yet another case of difference between Bench and Bar."

A Man Made Man

There is a very queer man made by a Berlin engineer. He is said to be the most perfect mechanical man in all the world.

He moves, walks, talks, sings and speaks as well as whistles in the most lifelike manner imaginable. He answers all sorts of questions and obeys many words of command.

Altogether he is without doubt the most realistic mechanical man in that wonderful land of mechanics—Germany.

RASH SO BAD BABY CAME NEAR DYING

Head Broke Out. Spread to Arms, Legs and Entire Body. Itched So He Would Scratch Until Blood Ran. One Box of Cuticura Ointment and Nearly One Cake of Cuticura Soap Cured Him. Has Had No Return.

"When my boy was about three months old, his head broke out with a rash which was very itchy and ran a watery fluid. We tried everything we could but he got worse all the time, till it spread to his arms, legs and then to his entire body. He got so bad that he came near dying. The rash would itch so that he would scratch till the blood ran, and a thin yellowish stuff would be all over his pillow in the morning. I had to put mittens on his hands to prevent him tearing his clothes. He was so weak and run down that he took fainting spells as if he were dying. He was almost a skeleton and his little hands were thin like claws.

"He was bad about eight months when we tried Cuticura Remedies. I had not laid him down in his cradle in the daytime for a long while. I washed him with Cuticura Soap and put on one application of Cuticura Ointment and he was soothed that he could sleep. You don't know how glad I was he felt better. It took one box of Cuticura Ointment and pretty near one cake of Cuticura Soap to cure him. I think our boy would have died but for the Cuticura Remedies and I shall always remain a firm friend of them. He was cured more than twenty years ago, and there has been no return of the trouble. I shall be glad to have you publish this true statement of his cure." (Signed) Mrs. M. C. Maitland, Jasper, Ontario, May 27, 1910.

For more than a generation mothers have found a speedy, agreeable and economical treatment for their skin-tortured little ones in Cuticura Soap and Ointment. Although they are sold by druggists and dealers everywhere, a liberal sample of each may be obtained free, from the Potter Drug & Chem. Corp., sole prop., 63 Columbus Ave., Boston, U.S.A.

CANADA STILL GROWS

PRINCIPAL OF LONDON COLLEGE AND CONDITIONS IN CANADA

Immense Fortunes Were Being Made and Plenty of Capital, Not Only From Britain but Also From Germany and European Lands Was Being Attracted—A Brilliant Future Before the Nation.

London.—The Rev. A. E. Garvie, principal of New College, London, read a paper on Canada on November 14, under the auspices of the Sociological Society of Arts, Mr. H. J. MacKinder presiding. He said that the economic difficulties of the old lands were being repeated in the new, where they might easily have been avoided. In order to attract settlers the possession of land was offered on very advantageous terms. But many men interested in the future of the country were feeling that the land and other natural resources were being too freely offered for private exploitation, and that the interests of the community were not sufficiently safeguarded.

Huge private fortunes were being made, and capital was being attracted, not from Britain only, but even from Germany and other European lands, and the gains seemed greater than the services rendered. This could not be a desirable factor in the evolution of the country.

A second feature in the situation in Canada which provoked serious thought was the treatment of Orientals.

Till a few months ago, although there were about 6,000 Hindu men there was no Hindu woman, but one was then admitted with her husband by order of the Dominion government, although the provincial authorities desired her deportation.

What most galled the Hindu was that he, too, was a British subject, and yet was treated with greater harshness than the aliens. They might feel a good deal of sympathy with "white" labor in its desire to maintain a higher standard of living and its dread of being undersold by cheap Asiatic workers.

On the other hand, from the wider and higher standpoint of humanity, the social prejudice and antagonism which entered into the discussion of the question could not but be deeply deplored. Should it be a necessity to restrict the numbers of immigrants, yet no conditions should be imposed which hindered a moral domestic life.

A third problem in the evolution of Canada had been thrust into prominence recently. The result of the elections was a surprise to the victors and the vanquished alike.

There were wider issues involved in the question than those of party politics.

First, was it desirable for Canada to use all her capital and labors in developing to the uttermost its abounding natural resources in field, forest, mine, fishery, both for its own enrichment and for the more abundant supply of food and raw material to the old industrial nations, or to attempt to develop under the artificial conditions of high protective industries which were but a copy of Europe's enterprises, and for which its natural resources did not specially adapt it? In the second place, some foolish American talk about reciprocity as the first step towards annexation gave Canadian partisans the opportunity they used to the uttermost. But the economic interests which might have suffered from reciprocity used for all it was worth the national prejudice.

It was regrettable that the Canadian and American, although so near neighbors, often cherished a prejudice against one another. Detachment from the United States was represented as the proof of attachment to Great Britain as if it were not Britain's true interests that the relations of Canadians and Americans should be as cordial as possible. The Canadian was loyal to Great Britain, and his loyalty did not depend on the granting to his country of any economic preference.

He desired finally to emphasize the immense possibilities, the glorious promises, and the radiant hopes of the new land. Its peril would seem to lie in too close imitation of the conditions of the older countries, and its progress in originality and courage in using its natural resources, and its social opportunities for the development of a society in which wealth would be more equally distributed, in which labor of every kind would be held in high honor, in which class distinctions and caste prejudices would not interfere with national solidarity, and in which the mental achievements, moral ideals and religious aspirations of Europe would not be merely a borrowed tradition or convention, but an inspiration to still truer thinking, nobler doing, and fuller living.

Pearl Watch Worth \$6,000

Geneva.—The watch-making firm of Louis Gallopin, of Chaux de Fonds, has just completed a wonderful watch, the only one of its kind in the world. A pearl, which weights forty-five grains and has a diameter of about half an inch, contains all the works. It took an employee of the firm fifteen months to hollow out the pearl and fix in the wheels. The watch, which is guaranteed to keep good time and may be worn as a ring on the finger, is worth \$6,000.

Free Gold in Kamloops

Vancouver.—Kamloops is excited over an alleged free gold discovery. Small nuggets are said to have been found in the crops of chickens from the Silton ranch. A number of people have staked claims there, intending to prospect further in the spring.

KING AND QUEEN IN INDIA

Brilliant Company and Gorgous Display At Delhi Celebration—Procession Four Miles Long

Delhi.—The troops fired a salute of 110 guns when the emperor and Queen arrived here from Bombay for the Durbar ceremonies. Equipages which vied with each other in splendor passed along roads crowded with Indian princes and government officials. Streams of natives lined the route in gay attire.

King-Emperor and Queen Empress were received on the elaborately decorated platform by the viceroy and the governors of provinces, the commander-in-chief and a number of high military and civil officials. After a series of presentations their majesties proceeded to a pavilion within a wall, where 150 ruling chiefs were introduced.

This brilliant company with its gorgeous display of jewels and richly colored garments occupied considerable time. Then began the procession to the camp four miles away. Throughout India a holiday had been declared, and hundreds of natives had gathered to get a glimpse of Emperor and Empress.

They formed a striking background to the gorgeously uniformed procession which was headed by lancers and with bands playing. Their majesties entered the city through the King's Gate, now opened for the first time since 1857, when the King of Delhi went to public worship. All along the route the impression seemed to be profound, and the reception was a cordial one.

On arrival at the camp the troops filed past the Emperor-King, who was presented with a brief address of welcome, to which he replied in a few words.

Their majesties and the vice-regal party, then departed to their camp of which circuit house, built by Lord Curzon in 1903, is the centre.

PEACE IN CHINA SEEMS CERTAIN

The Leaders of the Revolt Are Willing to Concede Full Power to the Premier

Wu Chang.—While absolutely opposed to the Manchu dynasty and occasionally favoring republic, Gen. Li Yuen Heng and the other rebel leaders have decided to a constitutional monarchy, with Yuan Shi Kai of other Chinese as ruler, under a constitutional parliament. The rebel leaders have determined upon this course in order to prevent further bloodshed and the possible disruption of the country.

Pekin.—An Imperial edict was issued recently sanctioning the cutting off of queues.

Shih Hsu, the Manchu prince, who was offered the grand guardianship of the Emperor on the resignation of the Regent, has definitely accepted the post. Shih Chang, the Chinese vice-president of the council who was offered the office of co-grand guardian, declined, but the throne insists on his acceptance of the office.

A telegram from Wu Chang says that the revolutionaries there are hopeful that the extension of the armistice will result in peace.

The leaders are willing to concede full power to the premier, Yuan Shi Kai, provided that he agrees to the entire elimination of the Manchus from the central government.

THE FIRST CHEAP CABLE

Postmaster General of Britain Reciprocates With Postmaster General Pelletier

Ottawa.—The first cheap cable under the reduced rates, between England and Canada, has been received, through the Great Northern Telegraph company, by Hon. Mr. H. Pelletier, postmaster-general. The cable, which is from the British postmaster-general, Hon. Herbert Samson, reads:

"Cordially reciprocate friendly wish contained in your letter of 24th November. Have announced in house of commons, that reduced rates for plain language deferred telegrams to and from Canada, will come into operation on the first of January, also that by arrangement with Western Union company, deferred press telegrams at half rates, and day and week-end cable letters, at greatly reduced rates, will be accepted at once by this company for places in Canada received by its system. Letter follows. Am sending this by cable letter on first day of the service."

Big Reduction in Cable Rates

New York, N. Y.—George M. Ward, general manager of the Commercial Cable company, announced recently, that the Commercial company would adopt a rate of five cents a word for deferred trans-Atlantic newspaper despatches. The cut of fifty per cent is similar to that announced by the Western Union Telegraph company. The week-end letters, and deferred cable letters, will not be adopted by this company. The plan of plain language telegrams at half rate will be followed.

Must Pay \$12,000 for Injuries

Moose Jaw.—Jury in the Supreme Court have awarded J. A. Tobin, formerly employed by the Canadian Pacific railway, \$12,000 damages and costs against the company for permanent injuries received while working with a construction gang, owing to the man in charge McCann gravel spreader touching valve wing of the machine, which fell onto him, breaking a limb, and doing other injuries. The leg would not heal and medical advice showed it might have to be amputated.

THE GRAIN MARKET

GRAIN MOVEMENT IS HEAVIER THAN EVER BEFORE

Railway Taxed to Their Limit—The Late Harvest Made a Very Short Season, Yet the Quantity of Grain Advanced to Seaboard is Larger Than At The Same Time Last Year.

Winnipeg.—The movement of the grain has undoubtedly been heavier this fall than in any previous season, notwithstanding the great cry of congestion of trains. Of course the output is much larger than ever before, and it is likely that the percentage of the crop moved out to date is not any greater than last year. The railways are being strongly criticised for not having arranged to carry the grain in a more satisfactory way. These criticisms are justified in a sense. Early in the season the railway officials were among the first to predict that the wheat yield of 1911 would be about 200,000,000 bushels. Of course, damage of one form or another affected the total but if the crop had been as large as at first estimated the argument would be that the railways would be tied up, even more seriously.

Why did they not prepare for what they themselves expected? The Commercial has referred, however, several times to the effect that the late threshing had on the movement. Really the period for hauling out wheat has been shorter than usual, owing to the lateness of the harvest. So that a great deal may be said to the credit of the railways, in the fact that they have taken out more grain than ever before, and that in a shorter time.

We are not upholding the railways at all. It is a well known fact that they have had their men in some of the Winnipeg shops on short hours for many weeks this fall, and unless their rolling stock is immune from breakage this year, it would seem that they should have kept their staffs busy in order to keep their cars and engines up to the proper standard.

As regards the quality of the wheat crop there is not much difference from the situation described in former issues.

It is mostly the three Northern and under but while the market has been a little easier this week the general opinion seems to be that high prices will continue for some time. Low grades have been in excellent demand, practically all season, and western Canada is fortunate in receiving such good figures for the large quantity of wheat under the regular contract grades.—Commercial.

Winnipeg Wheat Market

Winnipeg.—The wheat market was of a quiet nature in options, cash and export until immediately before the close.

American markets were reacted and became firmer.

British cables were higher and Winnipeg followed suit in options. December closed 1-4 cent, May 1-2 and May new 3-8 over Thursday figures. With light offerings the cash demand was poor until the close. The export trade is principally in low grades with the prices trending downward.

Chicago closed unchanged to 1-4 cent higher on May and July.

Minneapolis also closed higher on all months.

THREE BURNED TO DEATH

Young English Woman and Two Children Meet Horrible Death

Quebec.—Mrs. Thomas Jones, a young English woman, twenty-five years of age, and two children ages five and four years, were burned to death in a fire which occurred in Champlain street.

In the same fire a three months old baby was so badly burned that it cannot recover. The family occupied the second floor of the building known as the St. Lawrence club, and the fire broke out soon after the father had left home to go to work at the Chateau Frontenac. Its origin is a mystery.

A man named Henry Marquis who occupied the third floor barely saved himself and his family by lowering them down at the rear of the building by a rope.

A Big Elevator for Fort William

Montreal.—The Grand Trunk Pacific railway have awarded a contract to John S. Metcalf & Co., Ltd., Montreal and Chicago, for the design and construction of a 2,500,000 bushel concrete storage elevator at their Mission Island terminal, Fort William, Ont. The estimated cost of the structure is \$500,000. This is the second storage unit of the new Grand Trunk Pacific grain terminal at the above point, and will bring the storage capacity of the elevator up to a total of 5,470,000 bushels. The ultimate capacity of the grain terminal, as laid out by John S. Metcalf & Co., Ltd., contemplates a total storage capacity of 40,000,000 bushels.

EARL GREY TELLS GOOD STORY

Even Kings Get the Best Inspiration From Their Wives

London.—Earl Grey, for over thirty years a champion of co-partnership housing schemes, told a new story of the king and queen the other night, when he was welcomed home by a large gathering of garden city enthusiasts.

Two years ago, he said, he came over on a holiday to England, and one of the first pleasures he allowed himself was a visit to the Hampstead garden suburb. On the same day he took luncheon with the Prince and Princess of Wales, now king and queen. He pressed upon them the desirability of seeing the spot for themselves. The prince called for his engagement book. After glancing over it, he said regretfully that he had not an afternoon free.

Then the princess spoke, "But we must go there," she urged. "We've just got to find time." And they did.

"Even kings," commented Earl Grey, "get their best inspirations from their wives."

All thinking men, said the former governor-general, were looking to the principles of co-partnership as the best hopes for the riddance of the slums, with their poverty, distress, immorality and crime. England had allowed the slums so long to disfigure her so-called civilization. They were largely responsible for preventable disease and insanity and much of the physical, mental and moral degradation.

MORE CAPITAL FOR CANADA

Celebrated Belgian Banking Firm Has Opened Up Offices in Montreal

Montreal.—Mr. George Hardt, member of the celebrated banking firm of that name in Brussels, has arrived in Montreal, and intends to take up his permanent residence here and to establish in the city a financial house, which will be affiliated with his brother's firm in Belgium. In the course of an interview Mr. Hardt expressed himself in terms of undoubted enthusiasm for the future of the Dominion.

"The eyes of the whole financial world in Europe have been directed towards Canada," he said. "As offering the most profitable field for the investment of its surplus capital, not only Belgium, but French capitalists are simply crying out for an opportunity to be used for the development of Canadian resources. And so I have come to what is naturally the centre of financial activity, in order to establish what I presume you would call a trust company, which is the examination of such projects as may be submitted."

FIGHT HOME RULE TO LAST GASP

Bonar Law Announces That Unionists Are Opposed to Such Legislation

London.—At the opening in Lancashire of the Unionist campaign against Home Rule, the opposition leader, Andrew Bonar Law, said his party had determined to fight the proposal to the last gasp. Many people favored Home rule, because they were tired to death of the Irish problem and glad to see it out of the way. The duty of Unionists was to bring Ireland to peace, but not by the sword. Ireland wanted less politics and more industry.

Mr. Redmond and his friends, he said, were promising Ireland more politics and less industries.

They were wise in trying to get Home Rule while they could, continued the speaker. This was their last chance, as every year the demand for it was diminishing in Ireland. In a few years the agitation will have died out. He declared that it was utterly impossible to pass the bill in this parliament.

Train Hits Rig

St. Thomas, Ont.—Peter McArthur, the well-known author and newspaper man, had a miraculous escape from death while driving across a Grand Trunk crossing near Glencoe recently.

Mr. McArthur did not notice the approaching fast train, which struck the rig and hurled it and the horse to the side of the track. The train crew picked up Mr. McArthur and took him to Glencoe, where his wounds were dressed.

The rig was completely destroyed and the horse badly injured.

Cavalry Regiment Formed

Vernon, B.C.—Major McDonald, D. S. O., Strathcona Horse, of Winnipeg, is in charge of the provincial school of cavalry which started here recently. Major McDonald is assisted by Sergt. Major Collins, and Sergt. Marsden, also of Winnipeg.

This school is in preparation for the new regiment which has been established in B.C., to be called the 1st Regiment, and to comprise the Vernon, Coldstream, Armstrong and Kelowna squadrons. The regiment will have its headquarters at Vernon.

Boy Scout Killed in Lethbridge

Lethbridge.—Arthur Davis, C. P. R. call boy, was instantly killed in the freight yards here recently by being thrown off a freight car on which he was riding, under the wheels, the boy was fearfully mangled, nearly every bone being broken. Davis was 17 years of age, and assistant scoutmaster of the boy scouts, who will have charge of the funeral. An inquest was held on the remains, and it was found that the boy came to his death in an accidental manner.

Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

Dr. Pierce's Favorite Prescription

Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic. "Favorite Prescription" banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits.

It Makes Weak Women Strong. It Makes Sick Women Well. Honest druggists do not offer substitutes, and urge them upon you as "just as good." Accept no secret nostrum in place of this non-secret remedy. It contains not a drop of alcohol and not a grain of habit-forming or injurious drugs. Is a pure glycerine extract of healing, native American roots.

ST. VITUS DANCE

CURED THROUGH THE USE OF DR. WILLIAMS' PINK PILLS

Chorea, or as it is more generally known, St. Vitus dance, is a disease that usually attacks the young children, though older persons may be afflicted with it. Its most common symptoms are a twitching of the muscles of the face and limbs. As the disease progresses this twitching takes the form of spasms in which the jerking motion may be confined to the head, or all the limbs may be affected. The patient is frequently unable to hold anything in the hands or to walk steadily, and in severe cases even the speech is affected. The disease is due to debility of the nerves and is always cured by Dr. Williams' Pink Pills, which enrich the blood, tone and strengthen the nerves and thus restore the sufferer to good health. The following is a striking instance of what Dr. Williams' Pink Pills will do in this trouble. Mrs. Chas. Phipps, Pelee Island, Ont., says:—"At the age of fourteen my eldest daughter, Edith, became much run down, and the trouble developed into St. Vitus dance. First her left arm became affected, then the left leg and entire left side. She grew so bad that she actually could not hold anything in her hand, and could only go about with a sliding, jerking motion. Notwithstanding that we were giving her medicine, she seemed to be growing worse, and finally her speech became much affected. We became so much alarmed about her that finally her father got a supply of Dr. Williams' Pink Pills, and we began giving her these. In the course of a few weeks she was much better, and before all the pills were gone she was again enjoying perfect health. This was in 1908, and as she has not had a symptom of the trouble since I feel justified in saying the cure is permanent."

Be sure you get the genuine pills which are sold by all medicine dealers or may be had at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

Pills of Attested Value.—Parmelee's Vegetable Pills are the result of careful study of the properties of certain roots and herbs, and the action of such as sedatives and laxatives on the digestive apparatus. The success the compounders have met with attests the value of their work. These pills have been recognized for many years as the best cleansers of the stomach that can be got. Their excellence was recognized from the first and they grow more popular daily.

Science Says Alum is Unfit for Use in Food

In Great Britain no one is allowed to sell alum hidden in baking powder, because the English law protects the people from this injurious acid.

Canada has not yet enacted a law against the use of alum, and as alum in baking-powder cannot be detected by its appearance, many manufacturers are using this condemned acid because it is a cheap adulterant.

It is a fact that alum in your stomach produces the same disagreeable results to the delicate organism as you will feel in your mouth by putting a tiny piece on your tongue. Science shows that alum reduces the flow of gastric juices and weakens their power of assimilation, causing indigestion and the ills that follow.

No housewife should buy a baking-powder made by a manufacturer that is afraid to print the ingredients plainly on the label of each can, and the wording should state that there is no alum in disguise inside.

B. C. PRIZE POTATOES

Best Potatoes Grown in America Now Served on C.P.R. Dining Cars

Travellers on the Transcontinental trains of the Canadian Pacific Railway are now being served in the dining cars of the Company, with British Columbia Championship Baked potatoes. As an aftermath to the recent big land show at New York where the province of British Columbia won first prize in the competition for the best potatoes grown in America, the Canadian Pacific sent agents to the districts where the prize potatoes were grown and bought up all the championship variety of "Murphy's" that they could secure.

The C.P.R. intends to make a specimen of this potato on its dining cars. Other railways are able to serve big potatoes but they cannot secure British Columbia potatoes as the C.P.R. has a monopoly in this line. Already inserts for the regular menu cards have been printed in which the Championship baked potato occupies the place of honor on the "Ready to Serve" list.

Mr. Bear on Skates

One of the very funniest and most entertaining sights in London is a huge black bear, whose greatest talent and delight is skating.

Bears, as you know, are commonly supposed to be among the most awkward of living animals; but this particular Bruin is not nearly so clumsy as an ordinary human just learning to skate. Perhaps the fact that he has been practising for a long time, however, has something to do with the matter of his skill.

He wears extremely strong leather boots on his hind feet, and it is to these that his specially made skates are fastened.

Keep on hoping, but don't let it make you balk at the hurdles.

They Cleanse While They Cure.—The vegetable compounds of which Parmelee's Vegetable Pills are composed, mainly dandelion and mandrake, clear the stomach and intestines of deleterious matter and restore the deranged organs to healthful condition. Hence there are the best remedy for indigestion available today. A trial of them will establish the truth of this assertion and do more to convince the ailing than anything that can be written of these pills.

Deafness Cannot Be Cured

by local applications, as they cannot reach the solid portion of the ear. There is only one way to cure deafness, and that is to remove the cause. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness results and the tube must be opened again and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

Little Tommy had a great appetite for Polish buns, and at tea-time could stow away an amazing number of them.

One evening his grandfather, after interestingly watching the performance for some time, asked him:

"Have you ever in your life, Tommy, had all the Polish buns you could eat?"

"Yes, grandpa," said the juvenile, with his mouth full. "Lots and lots of times I've felt I've had enough."

"And how," went on the knowledge-seeker, "do you tell when you have had enough?"

"Oh, that's easy!" said Tommy serenely. "I just keep on eating till I get a pain, and then I eat one more to make sure!"

Then grandpa sighed heavily for the days of his youth, when he, too, had been able to perform such feats.

The Quickest Cough Cure—Cheap, But Unequaled

Sixteen Ounces of it for 50c. Saves You \$2. Does the Work Quickly or Money Refunded.

For quick, positive results the 16 ounces of cough syrup that you make with a 50-cent bottle of Pinex, cannot be equalled. It takes hold instantly and will usually stop the most obstinate deep-seated cough inside of 24 hours. Even croup and whooping cough yield to it quickly.

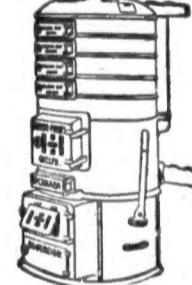

The user of Pinex mixes it with home-made sugar syrup. This gives you 16 ounces—a family supply—of better cough remedy than you could buy ready mixed for \$2.50. Easily prepared in five minutes—full directions in package.

Pinex soothes and heals the inflamed membranes with remarkable rapidity. It stimulates the appetite, is slightly laxative and tastes good—children like it. Excellent for hoarseness, asthma, bronchitis and other throat troubles, and has a wonderful record in cases of incipient lung trouble.

Pinex is a special and highly concentrated compound of Norway White Pine extract, rich in guaiacol and other natural healing pine elements. Simply mix with sugar syrup or strained honey, in a 16-oz. bottle, and it is ready for use. Used in more homes in the U. S. and Canada than any other cough remedy.

Pinex has often been imitated, but never successfully, for nothing else will produce the same results. The genuine is guaranteed to give absolute satisfaction or money refunded. Certificate of guarantee is wrapped in each package. Your druggist has Pinex or will gladly get it for you. If not, send to The Pinex Co., Toronto, Ont.

Synopsis of Coal Mining Regulations

COAL mining rights of the Dominion in Manitoba and Saskatchewan and Alberta, the Yukon Territory, the North-West Territories and British Columbia may be leased for a term of two years or at an annual rental of \$1 an acre. Not more than 2,500 acres will be leased to one applicant.

Application for a lease must be made to the Agent or Sub-agent of the district in which the right applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections and in unsurveyed territory the tract applied for shall be staked out.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not granted, but retained. A royalty shall be paid on the merchantable coal out of the mine at the rate of five cents per ton.

The person operating the mines shall furnish the Agent with sworn returns monthly accounting for the full quantity of merchantable coal and pay the royalty herein. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only and the lessee will be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10,000 acre.

The Minister may reserve for an applicant the coal mining rights under 2,500 acres of contiguous lands for two years. Application for such rights must be made to the Agent. Fee \$100.00. An expenditure at the rate of \$1 an acre per annum, in prospecting by recognized methods, must be incurred.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

Albert Jensen left for Denmark last week where he will spend the winter.

Henry Brown of Mound left for Comer Ont Tuesday Mr Brown is pleased with Alberta and will be back in the spring to stay.

What came near being a disastrous fire Monday in Craig & Co store was narrowly averted by the quick action of the staff who rushed up stairs with two fire extinguishers and did some excellent work before much serious damage. As it was ten fine ladies hats of the millinery department were destroyed. The blaze was caused by a lamp exploding or overturning.

A very serious accident happened to the young son of Mr Howard who recently came to Olds from Pearce N D. It seems that the boy and a playmate were shooting at a mark with a 22 rifle. While loading it the gun went off the bullet smashing several teeth of the Howard boy. It took a downward course going thru his tongue and lodging in his jaw. The doctors have located the bullet but have been unable to extract it as yet. Had the bullet taken an upward course after hitting the teeth it probably would have meant instant death.

Obituary

We regret to announce the death of Mrs Emma Anderson the beloved wife of Mr Andrew G Anderson of Betchton which sad event occurred on Sunday morning Dec 17 at the early age of 38. A funeral service was held in the home on Tuesday conducted by the Rev F Davies a large number of neighbours and friends being present. Rev Davies made reference to the deceased being a consistent member of the church and spoke of her kindly disposition and Christian character. After the service the body was brought to Bowden to be conveyed to Alexander Minnesota where the interment will take place in the family grave. Mr Anderson with his son and Miss Eledson accompanied the remains on the evening train south.
